VIOLA "Jersey Gem"

This plant is one of the recent acquisitions of the plant world that are really worth while and it will soon be seen in every garden. It seems to thrive in the heat of summer and its pleasing deep violet color makes it desirable to combine as an edging to other plants or in a bed by itself.

Plants from pots \$1.75 per doz. \$12.00 per 100.

HARDY FRAGRANT VIOLETS

are one of our specialties and for those interested in the culture of these dainty aristocratic plants we have prepared an illustrated descriptive list which we will gladly send on request.
